I get the error "some of the content" can not be displayed. Failed to load DXGI runtime.

Windows may need to restart your computer.

This is the result of my re-installing Windows 7... What's up with my error? How do I resolve this error? I added a few pictures (and some text) of the error. Some of the pictures were sent via email. If you see something you didn't hear of before, leave a comment or email me:
