Q: Extension of Euler's Totient Theorem
 Given any natural number N , show that
$$\varphi(N) = N \cdot \prod_{p|N} \left(1 - \frac{1}{p}\right)$$

$$= N \cdot \left(1 - \frac{1}{p_1}\right) \cdot \left(1 - \frac{1}{p_2}\right) \cdot \dots \cdot \left(1 - \frac{1}{p_k}\right)$$

$$= N \cdot \frac{p_1 - 1}{p_1} \cdot \frac{p_2 - 1}{p_2} \cdot \dots \cdot \frac{p_k - 1}{p_k}$$

$$= N \cdot \frac{(p_1 - 1)(p_2 - 1) \dots (p_k - 1)}{p_1 p_2 \dots p_k}$$

$$= N \cdot \frac{(p_1 - 1)(p_2 - 1) \dots (p_k - 1)}{N}$$

$$= (p_1 - 1)(p_2 - 1) \dots (p_k - 1)$$

-Nur, Indriantoro, dan Bambang, Supomo. (2013). Metodologi Penelitian Bisnis. Untuk Akuntansi dan Manajemen, BPFE: Yogyakarta. [33] Ombayo, J.O. (2011). [3] Indriantoro, Nur dan Supomo, Bambang (1999), Metodologi Penelitian Bisnis Untuk Akuntansi dan Manajemen, Edisi Pertama, Yogyakarta: BPFE. Indriantoro, Nur dan Bambang Supomo (2011), Metode Penelitian Bisnis (Untuk Akuntansi dan Manajemen), BPFE Yogyakarta. A multimedia presentation, such as a slide presentation, may include a combination of images, video, audio, and other content. While the content of the presentation are not limited to text-based descriptions, it is often useful to present a slide presenting text describing the visual elements of the presentation. Slides describing the presentation may provide a variety of visual aids to support the text and increase the usefulness of the presentation. As an example, slides may be used to provide context that make the presentation more meaningful and easier to understand. Slides may also be used to provide context that explain content being presented, such as text displayed by the presenter. For example, slides may contain content descriptive of a presenter's personal communication with other persons involved in a meeting, including content such as email, calendar entries, telephone calls, etc. A variety of applications may create, modify, and store presentation slides. For example, a presentation may be created in one format (e.g., .ppt, .odp, .pps, .pdf) and subsequently converted into another format (e.g., .jpg, .png, .svg) when sharing the presentation with others. Conversion of the presentation slides may involve resizing the images, text, and/or other content of the presentation. The conversion process may result in the images, text, and/or other content of the presentation being reduced in size. Images and other content of the presentation may not be adequately rendered to a viewer in a reduced size presentation. Thus, there is a need for more sophisticated methods, devices, and/or systems for automatically detecting, reducing, and/or compensating for alterations made to presentation slides./* * 82138339de
