Main article: Markup AutoCAD is a complete design solution for mechanical and architectural drafters, architects, civil engineers, and engineers who create architectural, mechanical, and infrastructure designs. The design productivity and efficiency of the user is enhanced through the use of AutoCAD's dynamic editing and parameterized dimensions. Use of a mouse and Windows operating system for cursor-based and direct manipulation provides easy connectivity with a Windows-based Windows and AutoCAD client. As part of the MITRE corporation, AutoCAD is an intellectual property of the United States Government, and is not sold as a product directly to the general public. Government agencies and departments have a license to use AutoCAD for their own purposes. Licensing is usually done via an agency or company's purchasing department. AutoCAD is also available as a cloud-based subscription service called AutoCAD 360. As of March 31, 2018, AutoCAD had sold more than 21 million licenses, and had sold more than 75 million licenses since its inception. AutoCAD is installed on more than 90 million desktops worldwide and is used by more than 600,000 users a day. History Development of AutoCAD began in 1979 as the first personal computer CAD application. The first version was released on September 12, 1982 as AutoCAD 1.00. The current version is AutoCAD 2018. AutoCAD software was originally marketed to the design community at the time of its introduction, with the typical main users being architectural and mechanical design engineers. The first version of AutoCAD was developed for the Apple II microcomputer. Since its inception, the first major iteration of AutoCAD was AutoCAD 2.00, released in 1985. Originally, AutoCAD ran on a computer with a dedicated graphics card, enabling more detail to be shown on the screen than would be possible on a typical 8-bit microprocessor. An overview of the various versions of AutoCAD: History of AutoCAD with screenshots Product History Autodesk released a first version of AutoCAD for Apple II in 1982, it was a difficult app for the 80s era Apple II because it used vector graphics and mouse/joystick support. The Apple II version supported 3D and macros. AutoCAD was introduced with a price tag of $500, but it was offered with 1 month of free technical support for the Apple IIe.
