## Groove Coaster - HB-aceleration KeyGenerator (Updated 2022)

The year is 2024. On January 20th of the new millenium, the majority of the Earth's population was killed by a virus which ravaged the world and took the lives of over 90 percent of those infected. The infected, hiding and turning into bloodthirsty cannibals, were driven into the deserts that had once been known as the Middle East, Southeastern Europe and The Persian Gulf, becoming savage beasts, which over time, began to revert into their human form. They reacquired the ability to speak, and through this; somehow kept up their leadership, leading them to fight the remaining few humans. The world began to be rebuilt in completely different forms, as the only thing that has been left is to start a new civilization and to keep the wars away from humanity.
