version8.First, what is a
national art movement? We
define it as the distinctive
style of art developed by and
found predominantly within
the nation it inhabits. As for
specific names, we consider it
to be any art movement
based on American influences
or incorporating a large
amount of American themes

and subject matter as found in American Art. Each of these should have been able to be used before it became a movement. Finally, our scope includes all forms of American art – whether cartoon, illustrations, webcomics, comic books, graphic novels, etc. – when by and large it is the artistic styles of these mediums that make up the American art movement. A national art movement that first took shape in the first decade of the 20th century is

the Art Nouveau movement. The central art style of this movement was most closely affiliated with Belgium, then France, and later the United States. In the early years, it drew upon ideas of Jugendstil, the national style of Germany, but the movement soon spread to other nations such as Britain, Russia, and Argentina. This movement was to be influential in the art of the most prominent region of America from the early 1920s to the early 1940s –

the so-called “Stable South”.

Now, let’s start to examine the type of art that has an American art movement. To

help make this more understandable, we will not consider any of the major American art movements to be more important than the other, but rather we will look at two smaller, but important art movements: the Animal Comic and the American Comic Book. The Animal Comic is a graphic novel-like genre that began in the

1930s and '40s. It was influenced by the movement toward realism and naturalism in American art. The goal of the Animal
